

# ICE MASTER RUN

Anti-slip traction

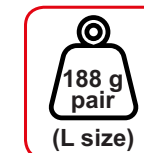

Ref. 3176

Lightweight elastomer binding system envelops the foot for a performance fit

Integrated rear pull tab makes it easy to put on and remove

Extremely lightweight device designed for winter running

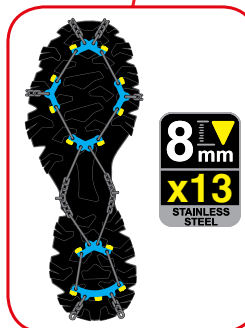

Robust stainless steel linking micro-chains for a better feel under foot while running

Available in 4 sizes for shoes from size 36 to 47

Special eyelets where the chains connect to the binding allow for optimal tensioning

13 stainless steel 8 mm spikes are evenly distributed under the sole of the shoe

Hard case is functional and compact with ventilation holes to allow the product to dry
